PROJECTS

APP-WEB

TRANSIT

Led the development of a comprehensive transit and customs management system that automates the calculation and tracking of client and government rules. Implemented a user-friendly interface that simplifies data entry and enhances visibility into shipment status. Resulted in improved compliance, reduced processing times, and increased customer satisfaction.
Automated all the processes of the company, resulted, in HR, finance, accountability, Sales...plateform

5/5 LA PLATEFORME

COMMUNITY AND DIGITAL MUSEUM

The platform enables the connection between the students, and funders or buyers, while providing them with a mentoring and training program to help them evolve in life and be professionally ready after the completion of their fine arts curriculum. the core Meaning of 5/5, 5 years studies, 5 years mentorship.
Created a digital art museum for artists to showcase and sell their artworks, alongside sharing related articles. Built an e-commerce platform that integrates with the website to enable secure online transactions. The project resulted in increased visibility for the artists "students" and expanded opportunities to monetize their creatives outputs.

LES TROIS MERVEILLES

RIAD / HOTEL BOOKING

Developed an efficient booking system for a RIAD/HOTEL, incorporating real-time notifications and reservation alerts. Automated check-in and check-out processes to reduce waiting times and improve customer experience. The project resulted in increased efficiency, improved guest satisfaction, and increased revenue.

ONFIELD

SPORT MANAGMENT AND RESERVATION APP

this app allows users to easily book fields for various sports, as well as create teams and manage related activities. Field owners and trainers can also use the app to manage their availability and bookings, while users can search for and book available fields on-the-go. The app streamlines the field booking process and provides a convenient solution for sports enthusiasts
